<https://iramfatema.github.io/portfolio/>

Full-stack developer with over 1 year of experience in PHP, and Laravel, JavaScript, Node.js. Skilled in Agile methodologies, problem-solving, and delivering high-quality web applications. Flexible and eager to enhance skills while contributing to innovative projects.

## SKILLS AND QUALIFICATIONS

- Front-end: JavaScript, Reactjs, Vue.js, HTML, CSS, Bootstrap, jQuery, Ajax, RESTful APIs, JSON/XML
- Back-end: Node.js, TypeScript, Laravel, PHP, WordPress, Python, Java
- Database: MySQL, Oracle, PL/SQL, MongoDB, PostgreSQL
- Version Control Systems: Git, GitHub
- Cloud Technologies and Testing: CI/CD pipeline, Docker, AWS, Jenkins, Postman

## CERTIFICATIONS

- Certified in Scrum Fundamentals November 2023

## WORK EXPERIENCE

**Frontend Developer** January 2024 - April 2024

Lambton College in Toronto – Cestar College, Toronto, Canada

- **Leadership Development:** Engaged in rotational leadership roles, guiding team actions, finding technical issues, troubleshooting and problem solving and ensuring the on-time execution of weekly deliverables.
- **Project Execution:** Developed scalable and secure code solutions in complex projects with NodeJS, Python, Django, MongoDB, MS Azure, and Docker, enhancing deployment efficiency and achieving realistic business outcomes.
- **Collaborative:** Fostered a supportive team environment, enhancing collaboration and effectively resolving conflicts. During the projects, I successfully applied SEO best practices to optimize websites, enhancing their search engine rankings.
- **Communication:** Spearheaded and implemented strategies to maintain clear and consistent project alignment among the team.
- **Self-directedness:** Demonstrated a keen willingness to learn and adapt, leading to a 40% increase in personal skill development and the successful implementation of new technologies in 3 key projects.

**Software Developer Remote (PHP)** October 2021 – July 2022

Panim Technology, Gandhinagar, India

- **Backend Development:** Optimized comprehensive website with over 100+ users, incorporating features such as attendance tracking, school schedules, etc. and delivered other web applications using PHP and Laravel, meeting client specifications.
- **Frontend Development:** Created user interfaces with HTML5, CSS, and JavaScript, enhancing user experience and managing MySQL databases for data efficiency, and documented each development phase and generated comprehensive reports.
- **Project Management:** Utilized Trello for project management and employed agile methodologies for efficiency.
- **Quality Assurance:** Implemented automated unit testing, reducing bug rates by 25%. Collaborated with cross-functional teams to test and debug software, ensuring seamless integration via RESTful APIs.
- **Code Quality:** Used GitHub for collaborative coding and code reviews, maintaining high code quality. Integrated client feedback, improving project performance by 15%.
- **Deployment:** Ensured containerization and deployment via CI/CD pipelines, improving development speed.

## EDUCATION
